Proceedings of a meeting held on the evening of Sunday the 28th August 1898 in the new house of Mr. A. Ramaiya on the 5th main Road, Chamarajendrapete, to concert the necessary Plague preventive measures and to meet the requirements of the Brahmins and high caste Hindus of Chamarajendrapete, as some cases of the plague had occurred in parts of the old City.

The meeting was presided over by M. R. Ry. C. Venkatachalaiya Garu.

The following is a summary of the transactions of the meeting:—

1. Mr. Appajaiya spoke of the inconveniences due to the appearance of the plague and intimated that he had submitted a memorial to the Plague Commissioner, through the Amildar of Bangalore, praying that Government might be pleased to construct Hospital sheds for Plague patients on the field belonging to him to the south of the 5th Main Road or that he might be permitted to build the sheds at his own expense and to have the care and management of the Hospitals in conformity

with the Plague Regulations. He further intimated that he would give the three Chatrams owned by him at Gavipur for use as segregation Camps, one of them being reserved specially for the use of Brahmins of Chamarajendrapete.

2. Messrs: D. Appu Rao, C. Rama Rao and K. Ramachendra Rao stated that they would build Plague sheds at their own expense for the use of the Brahmins of Chamarajpet on their respective fields near Mr. Appajaiya's field, in case the Government should be pleased to accord sanction to Mr. Appajaiya's prayer for the erection of sheds on his field.

3. The members present were of opinion that there should be an association which could be of help both to the public and the Govt:, in case the Plague should appear in or about Chamarajendrapete. Accordingly with the Consent of all present an Association was established called "The Chamarajendrapete High Caste Hindu Health Association."

4. The following Executive Committee was appointed to transact the business connected with the establishment and management of Plague sheds and Segregation Camps.

M. R. Ry:- C. Venkatachalaiya Garu - President
" 2 S. Subba Rau - Secretary
" 3 Appajaiya - Collector & Treasurer
" 4. D. Appu Rao
" 5. C. Rama Rao
" 6. B. Ramasami Iengar
" 7. R. Raghoonatha Rao Professor
" 8. T. Lukshmum Rao
" 9. K. Ramachendra Rao
" 10. A. Subbamma
} Members

M. R. Ry. 11. A. Venkataramasastri
" 12. A. Subba Rao

5. The number of members required to form a quorum should be four.

6 The Executive Committee should arrange to collect monthly subscriptions which are to be of three classes. viz. (A) Class Rs 3/- (B) Class Rs 2/- and (C) Class Re 1/-.

7 Non-subscribing poor people, both of Brahmins and high caste Hindus, may be, according to circumstances, admitted to the benefits of these arrangements, when the sheds are not required for the use of the subscribers or their people, ie. when vacancies exist in them, one or two sheds being reserved specially for the subscribers' use.

8. Members came forward at the spot offering to pay monthly subscriptions aggregating Rs 46. A large number of those present desired that for the convenience of the poorer people there should be a fourth Class with a subscription of eight annas, but, as that would unduly increase the difficulties connected with collection, and the management of a large concern, it was resolved that for the present the minimum of subscription should be one pupee, the requirements of the caste poor people of Chamarajendrapete being provided for by the Executive Committee as far as possible under the provisions of paras 3 and 8. It was further resolved that the Executive Committee should give intimation of the Establishment of the Association to such of the gentlemen residing at Chamarajendrapete as did not

not attend the meeting and arrange at once to circulate subscription lists and establish sheds etc.

9 The Subscriptions are to be utilized-

Firstly. for the entertainment of such office Establishment as the Executive Committee might require.

Secondly. for the maintenance of servants to watch the sheds and segregation Chatrams.

Thirdly -- for providing the ~~hospital~~ sheds with the requisite furniture and other hospital requirements, such as disinfectants, Vessels etc.

Fourthly - for maintaining such hospital Establishment as may be considered necessary- And

Fifthly -- for the erection of ~~sheds~~ huts when required, in addition to those which Messrs: Appajaiya, Appu Rao, Rama Rao and Ramachandra Rao have kindly promised to build- the Executive Committee being at liberty to raise additional Subscriptions to this end, if necessary.

Note The expenses connected with the segregation in Chatrams should be borne by persons concerned and those connected with the Medical treatment, nourishment etc: of patients in hospital sheds, by the patients or those interested in them.

Mr. Appajaiya having observed that he did not expect such elaborate arrangements would be required in connection with his Shed

It was resolved that this sheds be limited for the use of caste Hindus of Chamarajendrapete other than Brahmins, and that, for the sake of convenience, those sheds as well as the others refered to and the segregation Chatrams, be under one management and subject to the Control of the Executive Committee.

Note Chamarajendrapete for the purposes of these proceedings includes—

(1) The Mandi Sites

(2) Sowkar Timmappa's streets of houses in Goripalya.

(3) Road No I Albert Victor Road

(4) Roads nos II, III, IV, V and VI and

(5) Guttahalli. It does not include the Cooly lines or the Victoria Hospital Premises or the Pioneer Chawl.

11. As there is no good drinking water near the Chatrams at Ganipur, the Executive Committee do invoke the aid of Government to supply this want by providing a tap or two at the proper level (though it be on low ground) as near to Guttahalli and the Ganipur Police Station as possible for the use of segregation Camps and the inhabitants of Guttahalli and Ganipur. They will likewise ask for the extension of the water pipe on the 6th main Road to near the Patients' wards

12 Those present expressed their grateful thanks to Mr. Venkatachalaiya Garu for having presided at the meeting, to Mr. Appajaiya for having promised to give his Ganipur Chatrams for

Reception purposes and to Messrs. Appa Rao Rama Rao, Ramachendra Rao and Appanjaiya for having undertaken to build a few hospital sheds at their own expense

OFFICE OF THE MUNICIPAL COMMISSION,
City Bangalore, 14th September 1898

J. No. 108/p

From

The President, Municipal Commission,
Bangalore City.

SECTION Sanitary.

FILE No. 77

SERIAL No. 2

To

The Plague Commissioner
in Mysore
Bangalore.

SIR,

I have the honor to acknowledge receipt of your No. 1626, of the 9th Inst., forwarding in original letter from Mr. S. Subba Rao submitting Proceedings of a meeting held on Sunday the 28th of August 1898 of the respectable members of Chamarajpet, in view of their providing Hospital Sheds for Plague patients, for Brahmins and high class Hindus of the locality.

2. I beg to state that I inspected the locality this morning, and have approved

---

Forwarded in original to the Executive Engineer Water Works Division in favor of arranging to lay water on to the Camp at Chattram mentioned therein.

Sd/ W. Skinner
7/9/98 for Plague Comr

19th 9

Rec'd No. 1998 18.9.98.

EXECUTIVE ENGINEER WATER WORKS DIVISION 10 SEP 1898 1709

approved of the sites selected which are in open ground to the north of 5th Main Road of Chamarajendrapet. Three Hospital Sheds are to be erected, one each, by Messrs Appu Rao, Rama Rao, and Sowcar Appajaiya in that locality. To the West of 11th Cross Road, Mr Ramachandra Rao agrees to build another shed on his own land which is in every way suitable. In addition to these, Sowcar Appajaiya has intimated his willingness to build at his own expense sheds for the accommodation of high class Hindus, and also to place his Chathrams at the disposal of Brahmins, and high class Hindus at Gavipur, for segregation purposes. The construction

of the Hospital Sheds are being put in hand by these gentlemen. I met them all by appointment this morning and talked matters over with regard to the wants and necessities of the Hospital Sheds, pointing out that shelter provision would have to be made near the Hospital Sheds for those who are in contact with patients this they promised to build also.

3. There is an urgent necessity for providing water for Chatrams at Gavipur and for the Hospital Sheds near Chamarajendrapet. There will not be much difficulty about the latter as water has already been laid on to Chamarajendrapet, and the pipe extension will not be much

Bnt

But with regard to Gavipur, it is about half a mile from the nearest line of pipes. I beg therefore that instruction may be issued to Executive Engineer, Water Supply Division, to take the necessary steps for water connection with Gavipur and the Hospital sheds near Chamarajendrapet.

I have offered to give the Association and the citizens of Chamarajendrapet all the assistance I can, and they appeared to be very thankful for the prompt attention paid to their solicitations by you.

5. The original letter from Mr. S. Subba Rao is herewith returned.

I have the honor to be
Sir
Your most obedient Servant.
T. Leonard

Received No. 6295 MAR 16 1899 MYSORE

General No. 605

No. 296

Sanitary 7 — 7 —

Submitted to the Plague Commissioner for information.

16/3/99

Enclosure No.

With reference to Plague Commissioner's No. 8106 dated 11th March 1899 has the honor to state that the undersigned first carried out all the items of work with the exception of laying pipes in Gavipur as there were no C. I. pipes in hand. The C. I. pipes were received from England two months after the date of order of the Plague Commissioner referred to above. Some of the pipes were utilized for laying water to

1. Health Camp at Maralli.
2. For Mohamedan burial ground

3. For new Hindu Cremation ground
Perhaps it could not
the Dy of the Executive Engineer Chattrimisal the place -

When the undersigned went over to Gavipur he could find no segregation huts (if at all there were very few) and this led him to infer that the proposal to convert the Chatrum into a camp has fallen through and therefore put off the work.

No reminder or petition was ever sent to him on the subject and this naturally strengthened his Original Conviction, After keeping the pipes for over 4 months they were transferred to the Superintending Engineer for work in Mysore only the other day. The Undersigned has wired for pipes to Madras and will put the work in hand at a very Early date,
